

The UnoCart™ Range

Store & Charge
Laptops & Tablets

Customers looking for safe storage and charging for up to 20 tablets, netbooks or laptops cannot fail to be impressed by the features, construction and functionality of the UnoCart™.

Designed to perform in almost all environments, the UnoCart™ offers quality at an affordable price. Its safe charging means that users and devices are kept safe at all times and all laptops are charged simultaneously via the LapSafe® power management system.

The UnoCart™ also has a rear access door for technical staff, and twin thermostatic fans that ensure optimum charging temperature. Optional extras are available for added functionality.

| UnoCart™ Laptop 16 | UNOL/CL/016/** | 92kg | 1024mm | 885mm | 550mm |
| UnoCart™ Tablet 16 | UNON/CL/016/** | 68kg | 626mm | 885mm | 550mm |
| UnoCart™ Tablet 30 | UNON/CL/030/** | 105kg | 929mm | 992mm | 550mm |

Colours **Please specify the colour

The UnoCart™ is available in 5 different colours

Additional Options

Radio Access Point*

Turns the UnoCart™ into a wireless network point.

**Requires network connectivity*

Docking Station

This factory or retro fitted additional option locks the UnoCart™ to a wall, further enhancing security.

Timer

A 20 segment, 7 day digital timer can be factory fitted to the UnoCart™. Easy to use, the timer can be set so devices are charged at a set time e.g. at night to benefit from economy 7 energy charges.

Top Mounted Sockets

Additional power sockets mounted onto trolley for peripheral devices.
